The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, CA 90012

Dear Supervisors:

ADOPTION OF RECOMMENDATIONS TO ESTABLISH PRIORITIES FOR FUTURE FUNDING OF GENERAL CHILD CARE AND STATE PRESCHOOL PROGRAMS IN LOS ANGELES COUNTY (ALL DISTRICTS) (3 VOTES REQUIRED)

IT IS RECOMMENDED THAT YOUR BOARD:

1. Adopt the Child Care Planning Committee recommendations (Attachments I and II) to update the priorities for future funding for General Child Care and State Preschool programs by the California Department of Education/Child Development Division (CDE/CDD).
2. Direct the Chair to sign the enclosed Local Planning Council (LPC) County Priorities Report Form.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

Approval is needed from your Board and the County Superintendent of Schools for the revised priorities for future funding of General Child Care and State Preschool programs by CDE/CDD. These programs provide half-day pre-kindergarten programs (State Preschool) and full-day child development services for children from income eligible families in center-based and family child care home networks. The priorities indicate the areas where large numbers of un-served children in eligible families reside.

The CDE/CDD requests identification of priority areas to guide the process of allocating new funds for State Preschool and/or General Child Care programs, when the funds become available.

Staff

Laura A. Escobedo
Child Care Planning
Coordinator

Implementation of Strategic Plan Goals

Approval of priorities for future funding assists in directing new state resources, when they become available, to the children and families most in need of child care and development resources. This relates to Goal 5: Children and Families Well-Being of the Strategic Plan in that the effective targeting of resources helps to ensure the healthy development of children and the economic self-sufficiency of families.

FISCAL IMPACT/FINANCING

There is no fiscal impact to the County of Los Angeles.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

Education Code, Section 8499.5(e) states, "The department shall allocate funding within each county in accordance with the priorities identified by the local planning council (Child Care Planning Committee) of that county and submitted to the department pursuant to this section, unless the priorities do not meet the requirements of state or federal law." The Child Care Planning Committee reviews and updates the priority zip codes when the Countywide needs assessment is updated. The needs assessment was updated in 2007 and the data from the needs assessment was used to review and update priorities. These recommended priorities meet the requirements of state and federal law.

The data used to review and update the priorities included:

- Number of children, zero-to-three, three-through-five, and six-to-twelve years old, in working families whose incomes are less than 75 percent of the State Median Income (SMI) extrapolated from the 2000 Census data and updated with data from the American Community Survey (2006);
- Number of children, three-through-five years old, in families whose incomes are less than 75 percent of the SMI and where there is at least one parent at home; and
- Number of children in each age group who are served in a California Department of Education/Child Development Division (CDE/CDD) Program by resident zip codes. The programs include: Alternative Payment, Center-based, Family Child Care Network, CalWORKS Stages 2 and 3, State Preschool, and Latchkey. These numbers, provided by CDE/CDD staff, were compiled with information from contractors' reports from April 2007. In addition, to determine school-age priority areas, the count of After School Education and Safety (ASES) and 21st Century program spaces was considered; number of children enrolled, or spaces available in Head Start, Pre-K Family Literacy Program, First 5 funded literacy programs, and spaces in Los Angeles Universal Preschool (LAUP). These numbers were provided by the respective programs.

Honorable Board of Supervisors
July 1, 2008
Page 3

The Child Care Planning Committee sponsored a public hearing on April 23, 2008. Input from participants was noted and incorporated into the final recommendations.

The Child Care Planning Committee reviewed and approved the recommended priorities at its May 7, 2008 meeting. The Superintendent of Schools has signed an endorsement of the updated priorities.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

Funding for current child care and development services will not be impacted. CDE/CDD will use the priorities to determine new allocations when funds become available.

CONCLUSION

A signed/stamped copy of the LPC County priorities Report Forms should be returned to:

Office of Child Care
Chief Executive Office, Service Integration Branch
222 South hill Street, 5th Floor
Los Angeles, California 90012.

The forms will be forwarded to the CDE/CDD as required.

Respectfully submitted,

Holly Reynolds, Chair
Child Care Planning Committee

If the priorities previously submitted are still valid, only the LPC Chairperson's signature is required.

Revisions to previously submitted priorities require approval of the County Board of Supervisors and the County Superintendent of Schools or an authorized representative of each entity.

63 JULY 1, 2008

Rev. 3/16/05

Child Care Planning Committee of Los Angeles County

**Recommended Priorities for Future Funding
For General Child Care and Development Services.**

The Child Care Planning Committee compiled the following data at the census tract and/or zip code level:

- 1) Number of children, zero-to-three, three-through-five, and six-to-twelve years old in working families whose incomes are less than 75% of the State Median Income (SMI) extrapolated from the 2000 Census data and updated with data from the American Community Survey (2006).
- 2) Number of children, (infants, preschool-age, and school-age), who are served in a California Department of Education/Child Development Division (CDE/CDD) Program by resident zip codes. The programs include: Alternative Payment, Center-based, Family Child Care Network, CalWORKS Stages 2 and 3, Full-day State Preschool, and Latchkey. These numbers, provided by CDE/CDD staff, were compiled with information from contractors' reports from April 2007. In addition, to determine school-age priority areas, the count of After School Education and Safety (ASES) and 21st Century program spaces was considered.

Countywide totals for the data used in setting priorities:

| Age Group | Eligible Population | Number currently served | Percent currently served |
|-----------------|---------------------|-------------------------|--------------------------|
| Infant/Toddlers | 116,055 | 11,374 | 9.8% |
| Preschool age | 109,392 | 32,537 * | 29.7% |
| School-age | 260,221 | 28,281** | 10.9% |

* Excludes part-day State Preschool.

** Does not include the 83,000 ASES and 21st century space count

In creating a formula that would help identify the areas most in need of more subsidized services, the Strategic Planning and Needs Assessment Work Group considered the size of the resident population of eligible children and the percentage of those children currently un-served. The formulas for determining priorities varied by age group.

Infant/Toddlers

For Infants/Toddlers (zero-to-three), the Work Group determined that to be considered a Priority 1 zip code, the population threshold for eligible children is

200; and the portion of un-served children is 25 percent or more. Priority 2 zip codes have a threshold of at least 100 children and 25 percent or more are un-served. Unlike the other age categories there is no Priority 3 for infants. Using an eligible population of less than 100 would not be feasible.

Preschool Ages

For preschool-age children (3 through 5), the Work Group determined that to be considered a Priority 1 zip code, the population threshold for eligible children is 300; and the portion of un-served children is 50 percent or more. Priority 2 zip codes have a threshold of at least 300 eligible children and 25-49 percent are un-served. Priority 3 zip codes have at least 200 eligible children and at least 25 percent are un-served.

|--|---|

The LPC hereby certifies that the priorities for State Preschool as indicated below have been prepared and reviewed in accordance with Education Code requirements.

The priorities submitted to CDD in 2006 for are still valid and no change is needed.

The priorities for State Preschool have been revised and are contained in the attached report:

Recommended Priority Areas for Future Funding: State Preschool

(Attach additional pages if needed.)

* Instructions for Signatures

If the priorities previously submitted are still valid, only the LPC Chairperson's signature is required.

Revisions to previously submitted priorities require approval of the County Board of Supervisors and the County Superintendent of Schools or an authorized representative of each entity.

Rev. 3/16/05

63 JULY 1, 2008

Child Care Planning Committee of Los Angeles County

Recommended Priority Areas For Future Funding: State Preschool

The Child Care Planning Committee compiled the following data at the census tract and/or zip code level:

- 1) Number of children ages three through five in families whose incomes are less than 75% of the State Median Income (SMI) extrapolated from the 2000 Census data and updated with data from the American Community Survey (2006). This number was further refined by eliminating all the children in families where all parents were in the workforce.
- 2) Number of preschool-age children enrolled in a California Department of Education/Child Development Division (CDE/CDD) State Preschool Program (excluding full-day Preschool).
- 3) Number of children enrolled, or spaces available in Head Start, Pre-K Family Literacy Program, First Five funded literacy programs, and spaces in Los Angeles Universal Preschool (LAUP). These numbers were provided by the respective programs.

In creating a formula that would help identify the areas most in need of more State Preschool resources, the size of the resident population of eligible children and the percentage of those children currently served were considered. These priority levels were used to help communicate the complexity of the need situation in Los Angeles County.

An area was considered to be Priority 1 if:

- 1) there were at least 300 un-served eligible children and,
- 2) 75% or more of the total eligible population was un-served.

An area was considered to be Priority 2 if:

- 1) there were at least 300 un-served children and,
- 2) 50% to 74% of the total eligible population was un-served

An area was considered to be Priority 3 if:

- 1) there were at least 100 un-served children and,
- 2) at least 30% were un-served.

In reviewing the data, it was clear there are a number of communities in the County that have high numbers of children and have also benefited from past development of half-day preschool programs over a period of time. While the number of un-served children (based on population estimates) remains high, these areas have been saturated with programs to a point at which it is not easy to fill new classrooms, thus creating the potential for contractors to under-earn

their CDE contracts. Anecdotal information from contractors indicates that these areas are highly competitive in terms of enrollment since there are so many options. Therefore, setting a higher bar for the percent of un-served children will hopefully help target areas that have not reached a saturation point.

Using the data and the formula described above resulted in the identification of 24 zip codes as Priority 1 areas, 35 Priority 2 zip code areas, and 67 Priority 3 zip codes for any new funding for State Preschool. The Antelope Valley (SPA 1) does not have any Priority areas for future funding. There are approximately 2,453 children, ages three through five, in income eligible families; and there are 2,758 spaces in half-day preschool programs available in SPA 1. These numbers include both the population centers of Lancaster and Palmdale as well as smaller outlying communities. While distance between the population centers, where most of the preschool spaces are, and outlying communities can be great, the numbers of eligible children in these communities is in the single digits and thus it is not feasible to create new programs in these areas.

Priority zip codes for State Preschool, by Service Planning Areas (SPA) are:

Service Planning Area 1

There are no Priority areas *

** Please see last paragraph above for explanation*

Service Planning Area 2
